Additional information (note 17)

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

1 - NATURE OF OPERATIONS AND GOING CONCERN

Nature of activities

Robex Resources Inc. (the "Company") is a junior Canadian operations and exploration mining company. The Company has entered into commercial operation on its Nampala deposit, located on the Mininko permit, on January 1st, 2017. In addition to its operational mining activities, the Company currently holds four exploration permits, all located in Mali, West Africa. These permits all demonstrate a favourable geology with a potential for the discovery of gold deposits. The head office's address is 437 Grande Allée Est, Québec (Quebec) G1R 2J5, Canada.

Going concern

These condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards published by the International Accounting Standards Board (IFRS) based on the going concern assumption, which contemplates the realization of assets and the settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. Management is aware in making its assessment of material uncertainties related to events and conditions that lend a significant doubt upon the Company's ability to continue as a going concern, and accordingly, the appropriateness of the use of IFRS applicable to a going concern, as described in the following paragraph. These condensed interim consolidated financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and consolidated statement of financial position classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

As at March 31, 2019, the Company has an accumulated deficit of \$19,106,462 (\$19,931,484 as at December 31, 2018). In addition to ongoing working capital requirements, the Company must secure sufficient funding to meet its obligations and existing commitments for exploration and evaluation programs, for mining operations, and for pay general and administration costs. As at March 31, 2019, the Company had a working capital deficiency of \$4,255,393 (\$3,883,500 as at December 31, 2018), including cash of \$917,560 (\$7,422,458 as at December 31, 2018).

Until the Company's mining operations have confirmed an adequate improvement in financial condition, the continuation of its activities will depend on its ability to secure necessary financing by way of borrowing. While management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding or initiatives will be available to the Company or that they will be available on terms acceptable to the Company. If management is unable to renew necessary funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these condensed interim consolidated financial statements.

Although the Company has taken steps to verify the title to mining properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and may not be in compliance with regulatory requirements.

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

2 - BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

The accounting policies followed in these condensed interim consolidated financial statements are consistent with those applied in the Company's annual financial statements for the year ended December 31, 2018, except for the adoption of new accounting standards as described in note 3. These condensed interim consolidated financial statements should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2018, which have been prepared in accordance with IFRS as issued by the IASB.

The Board of Directors approved these condensed interim consolidated financial statements on May 30, 2019.

3 - SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies complement those described in our annual audited consolidated financial statements for the period ending December 31, 2018.

Leases

The Company is a party to lease contracts for office space.

Lease terms are negotiated on case-by-case basis and include a wide range of terms and conditions. The lease agreements do not impose any covenants.

Leases are recognized as a right-of-use asset and a corresponding liability to the date when the leased asset is available for use by the Company. Each lease payment is allocated between liability and financial expenses. Financial expenses are charged to net income over term of the lease for a constant periodic interest rate on the remaining balance of the liability for each period. The right-of-use asset is amortized over the lease term on a straight-line basis.

Right-of-use assets

Right-of-use assets are initially measured at cost and include:

- the amount of the initial measurement of the lease liability
- lease payments made on or before the start date, less any lease incentives
- all initial costs incurred directly by the Company
- restoration costs.

After the start date, right-of-use assets are measured at cost, less any accumulated depreciation and any accumulated impairment losses and are adjusted for any revaluation of the lease obligation.

Lease obligations

Lease obligations are initially measured at the present value of the lease payments that have not been paid as of that date. This includes:

- fixed payments, less any lease incentives receivable
- variable lease payments that are based on an index or rate
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

3 - SIGNIFICANT ACCOUNTING POLICIES - (continued)

Leases - (continued)

Lease payments are discounted using the Company's incremental borrowing rate unless the implicit rate in the lease contract is readily determinable in which case the latter is used.

Exemptions

The Company elected to apply exemptions for leases with low underlying asset values or for which, the lease term does not exceed 12 months. Payments associated with such leases are recognized on a straight-line basis as an expense in net income.

4 - CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Valuation of lease obligations and right-of-use assets

The application of IFRS 16 requires the Company to make judgments that affect the valuation of the lease obligations and the valuation of right-of-use assets. These include: determining contracts covered by the scope of IFRS 16, determining the contract term and determining the interest rate used for discounting future cash flows.

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

5 - SEGMENTED INFORMATION

The Company conducts its operating and exploration activities in Mali. The operational sectors presented reflect the Company's management structure and how the Company's principal operational decision-maker assesses business performance. The Company evaluates the performance of its operating sectors primarily based on operating income (loss), as shown in the following tables.

			Ougster and ad	March 31, 2019
			Quarter ended	iviarcii 51, 2019 \$
	Operations (Nampala, Mali)	Explorations (Mali)	Corporate Management	Total

Provision related to the subsequent dismantling of the facilities being built on the Nampala site

As at As at March 31, 2019 December 31, 2018 \$ \$

As at

As at

The Company's activities are subject to various laws and regulations regarding environmental restoration and closure provisions, for which the Company estimates future costs. These provisions may be revised on the basis of amendments to such laws and regulations and the availability of new information, such as changes in reserves corresponding to a change in the mine life and discount rates, changes in estimated costs of reclamation activities and acquisition or construction of a new mine. The Company makes a provision based on a best estimate of the future cost of rehabilitating mine sites and related production facilities on a discounted basis.

19 - CONTINGENCY

Environmental protection

Diluted net earnings per share

The Company's activities are subject to governmental laws concerning the protection of the environment. The environmental consequences are difficult to identify, whether it is at the level of the results, of the term or of its impact. To the best knowledge of management, the Company is operating in compliance with the laws and regulations currently in effect. Costs resulting from the restructuring of sites are recorded in the results or included in the cost of the fixed assets concerned in the period in which it will be possible to make a reasonable estimate.

⁽¹⁾ The calculation of the hypothetical conversions excludes options whose effect is anti-dilutive. Some stock options and conversion rights are anti-dilutive either because their price is higher than the average price of the Company's common shares for each of the periods presented or because the impact of the conversion of these elements on net income would result in diluted earnings per share exceeding the basic earnings per share for each of these periods. For the quarter ended March 31, 2019, 14,050,000 stock options are not included in the calculation of diluted earnings per share (149,650,000 conversion rights and 13,350,000 stock options for the quarter ended March 31,2018).

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

20 - FINANCIAL INSTRUMENTS

Measurement categories

Financial assets and financial liabilities have been classified into categories that determine their basis of measurement and, for items measured at fair value, whether changes in fair value are recognized in the consolidated statement of income or in the consolidated statement of comprehensive income. These categories are: assets and liabilities at FVTPL and financial assets and liabilities at amortized cost. The following table shows the carrying amounts of assets and liabilities for each of these categories:

	As at	As at
	March 31, 2019 December 31, 2018	
	\$	\$
Financial assets at amortized cost		
Cash	917,560	7,422,458
Accounts receivable	58,608	62,938
Deposits paid	2,128,217	1,461,893
	3,104,385	8,947,289
Financial liabilities at amortized cost		
Accounts payable	10,916,203	10,515,667
Line of credit	483,104	130,587
Long-term debt	21,093,054	24,290,301
Lease obligations	224,768	
Non-convertible debentures	11,640,000	11,640,000
	44,357,129	46,576,555

Financial risk factors

a) Market risk

Fair value

The carrying amounts of financial assets at amortized cost approximate their fair value due to their short-term maturity and the prevailing interest rates of these instruments, which are comparable to those of the market.

The Company considers that the carrying amount of all its financial liabilities at amortized cost in its condensed interim consolidated financial statements approximates their fair value. Current financial assets and financial liabilities are valued at their carrying amounts, which are reasonable estimates of their fair value due to their near-term maturities. The fair value of long-term debt has not been determined due to the related specific conditions negotiated between the Company and the third parties concerned.

(all amounts are in Canadian dollars unless otherwise indicated - unaudited)

20 - FINANCIAL INSTRUMENTS (continued)

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due.

The following table shows the contractual maturities of financial liabilities as at March 31, 2019:

	Carrying	Less than	From 1 to 3	More than 3
	amount	a year	years	years
Accounts payable	12,961,973	12,961,973		
Long-term debt (1)	21,093,054	11,228,169	10,882,033	1,369,759
Line of credit	483,104	483,104		
Non-convertible debentures (1)	11,640,000	1,164,000	12,804,000	
	46,178,131	25,837,246	23,686,033	1,369,759

The following table shows the contractual maturities of financial liabilities as at December 31, 2018:

	Carrying	Less than	From 1 to 3	More than 3
	amount	a year	years	years
Accounts payable	12,635,531	12,635,531		
Long-term debt ⁽¹⁾	24,290,301	11,720,016	13,238,658	2,280,874
Line of credit	130,587	130,587		
Non-convertible debentures (1)	11,640,000	1,164,000	12,804,000	
	48,696,419	25,650,134	26,042,658	2,280,874

⁽¹⁾ Future maturities relating to these liabilities exceed their carrying amount because they include both capital and interest payments.

21 - RELATED PARTY TRANSACTIONS

Results for the quarter ended March 31, 2019 include expenses of \$1,001,312 that were incurred with the directors and officers of companies controlled by them (\$1,771,231 for the quarter ended March 31, 2018), including a total interest amount of \$252,863 on debentures (\$496,957 for the quarter ended March 31, 2018). These transactions occurred in the normal course of operations and are measured at the exchange amount which is the amount of consideration established by the related parties.
