In 2013, following the appointment of Mr. George Cohen as Chairman of the Board, clause 4.12 of the Charter of the Board presented at Appendix "B" has not been respected. This clause provides that the Chairman of the Board must be an independent director. Indeed, Mr. Cohen served as Chairman of the Board and President and CEO of the Company. However, Mr. Cohen is not a member of the Audit Committee and has accumulated both positions at the request of the directors and for the good of the Company. The policy was revised April 25, 2014 to officially allow the combination of the two positions.

Deloitte LLP have been the independent auditors of the Company. In early 2014, the audit and risk management committee of the Company (the "***Audit Committee***"), with the approval of the Board, judged that it was time to select a new accounting firm and propose the accounting firm to the shareholders as auditors of the Company for the 2014 year. The Audit Committee recommended to the Board the appointment of PricewaterhouseCoopers LLP.

Pursuant to *Regulation 51-102 respecting Continuous Disclosure Obligations* ("***Regulation 51-102***"), reportable events between the Company and Deloitte LLP. The relations of Deloitte LLP on the annual financial statements of the previous two years contained no restriction. Appendix "C" of this Circular is made up of the following:

- The text of the notice by the Company, in accordance with Regulation 51-102, the Canadian securities commissions from Deloitte LLP and PricewaterhouseCoopers LLP;
- The text of the letter Deloitte LLP and PricewaterhouseCoopers LLP to the Canadian securities commissions.

The mandate of Deloitte LLP as auditors expires at the close of the 2013 annual meeting, and the appointment of PricewaterhouseCoopers LLP must be approved by a majority of votes casted by holders of common shares.

In the decision to retain the services of PricewaterhouseCoopers LLP, the Audit Committee has verified their independence as well as commercial relations which PricewaterhouseCoopers LLP has with the Company. The Audit Committee concluded that PricewaterhouseCoopers LLP has no commercial relationships with the Company that could affect their independence. The Board of Directors recommends shareholders to appoint PricewaterhouseCoopers LLP as auditors of the Company for a term of one year starting at the end of the Meeting.

Unless the shareholder indicates that they abstain from voting on the appointment of auditors, the voting rights attached to the shares represented by the proxy will be voted IN FAVOUR of the appointment of PricewaterhouseCoopers LLP as auditors of the Company.

STATEMENT OF EXECUTIVE COMPENSATION

Analysis of Remuneration

Objective of the Compensation Program

The compensation program of the Company aims to attract, develop and retain the best human resources to optimally contribute to the efficiency and growth of the Company.

Overall, the executive compensation program aims to design executive compensation packages that meet executive compensation packages for executives with similar talents, qualifications and responsibilities at Companies with similar financial, operating and industrial characteristics.

The Company is a Company working in the field of mineral exploration that will enter into production phase in the second quarter of 2014. The construction of the Nampala mine is almost completed; the Company expects to generate revenues as of the second quarter. Therefore, the use of traditional performance standards, such as the profitability of the Company, is not yet considered appropriate by the Company for purposes of evaluating the performance of senior management. The remuneration of senior management is determined according to the performance and experience of each manager given the business strategy of the Company and general economic issues.

The Company has properties that are in various stages of exploration and development, and the financial resources are limited. Cost control is to ensure that the necessary funds to carry out its exploration programs are available. The Board must take into account not only the financial situation of the Company in the preparation of executive compensation but also the financial situation over the medium and long term.

Compensation Committee

It should be noted that during the 2013 fiscal year, the compensation committee did not sit. Also, the mandate of the compensation committee was terminated at the meeting of the Board of Directors on April 25, 2014.

Elements of Compensation

The remuneration of senior management is essentially the payment of consulting fees to management companies in which the senior management are employed or are the beneficial owners of those management companies. The Company may also grant options to executives.

Base salary and consultant fees

The Board of Directors, in determining consulting fees for each member of the senior management, takes into account the experience and the position of the individual within the Company.

Annual bonus

Since May 9th, 2013, the Company no longer has employees eligible for the annual bonus program.

Stock Options

The Board of Directors believes that employees should have an interest in the future growth of the Company and they should correspond to those of shareholders. Leaders who can have a direct impact on the affairs of the Company have the opportunity to participate in the stock option plan of the Company's shares for employees, officers, directors and consultants.

Stock Options may be awarded by the Board of Directors to executive officers, employees or consultants at the commencement of their employment, annually, upon the achievement of corporate and individual objectives and from time to time, in order to reward an exceptional accomplishment.

The Board, by providing grants of options, take into account the number of shares already held by the executive management, the level of responsibility assumed by the senior management as well as their contribution to key business objectives of the Company and the achievement of corporate objectives.

For further information regarding the Stock Option Plan, refer to the item “**SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS - Stock Option Plan**”.

Compensation of the President

Pursuant to his explicit request, the President did not receive any remuneration during the financial year ended that December 31, 2013, as the Company was still in the exploration stage and the financial resources of the Company did not allow it. When the Company will have sufficient liquidity, the President will receive compensation in the form of a management fee based on comparable markets and the evaluation by the Board of his performance taking into account the financial capacity of the Company and the progress made in the pursuit of its strategic objectives. In 2014, Robex will not pay any remuneration to Mr. Cohen.

Mr. Georges Cohen is not an employee of the Company and by this fact does not receive remuneration for his services directly. His compensation will eventually be paid in the form of management fees to Fairchild participations S.A. (“*Fairchild Participations*”), for his services as President. Mr. Cohen will receive 95% of the remuneration paid to Fairchild Participations that is related to the services he renders to the Company.

Fairchild Participations is a management company incorporated and domiciled in Luxembourg, and is controlled by the Cohen Group.

Use of outsourcing services

The services of the President and the Vice-President and CFO are provided to the Company by Fairchild Participations under a contract of providing for the lending of personnel concluded in April 2013.

Mr. Benjamin Cohen was appointed as director of the Company on March 4, 2014. No amount was charged for the services of the President. Compensation of Directors

Narrative discussion

The Compensation Committee is responsible for developing the directors' compensation plan which is approved by the Board of Directors. The objectives of the directors' compensation plan are to compensate the directors in a manner that is cost effective for the Company and competitive with other comparable companies and to align the interests of the directors with those of shareholders.

Directors could charge \$ 1,000 in fees for attending each meeting in person. For the year ended December 31, 2013, certain directors did not charge any fees to attend meetings of the Board or its committees. Members of the Cohen Family did not charge any fees for attendance in 2013. Other independent directors could receive a fee of \$ 500 for attending, in person, each board meeting and each Board. Only two directors have charged an attendance fee during the year.

(a) **Credit Facility of \$5 million of May 8, 2014**

The Company negotiated with Mr. Georges Cohen, President and CEO of the Company, a revolving credit facility of an amount up to CDN\$5 million. The purpose of this credit facility is to meet the cash flow needs of the Company as it prepares to enter into the production phase of its Nampala mine in Mali, to support capital expenditures, and to purchase gold production equipment. The credit facility is available for a term of one (1) year, bears an interest rate of 8% per year, and is renewable on an annual basis.

The Company has granted a first rank hypothec on the present and future movable property of the Company as security for the credit facility.

The Company is relying of the formal valuation and minority approval exemptions since neither the fair market value of the Credit Facility, nor the fair market value of the funds received, insofar as it involves related parties, exceeds 25 % of the Company's market capitalization.

(b) **Private Placement and Loan of \$15 million**

On April 3, 2014, the Company announced the completion of the construction of phase 1 of the gold mine in Nampala, Mali (the "*Mine*"). In anticipation of the upcoming completion of the plant and the beginning of the production phase of the Mine, the Company announced on May 8, 2014 an agreement in principal to enter into a CDN\$15,000,000 subscription agreement, a credit facility for the same amount and a related change to its international corporate structure that are expected to be completed on or about May 29, 2014, with a purpose of improving the Company's return on investment and restructuring its indebtedness.

On March 27, 2014, the Company incorporated a new affiliate, African Peak Trading House Limited (the "*Trading House*"), a corporation governed by laws of Isle of Man. The Company will subscribe for common shares and Class B Shares of the Trading House in an aggregate amount of CDN\$15,000,000. The Trading House will use the subscription proceeds from the Company to establish, in favour of Nampala S.A., the Company's subsidiary in Mali ("*Nampala*"), a CDN\$15,000,000 senior non-revolving credit facility through a secured Gold Stream Credit Agreement (the "*Gold Loan*"). The proceeds from the Gold Loan will be used by Nampala to restructure its intercompany indebtedness by paying back advances to the Company, fund capital expenditures for the completion of construction and operation of the Mine, support the production phase of the Mine and for working capital purposes. Under the Gold Loan, Nampala will deliver possession to the Trading House of all of the doré bars extracted from the Mine over a ten year period in repayment of the capital and interests owed under the Gold Loan. The Trading House will sell the doré bars on the international open market and distribute the gold trading profits to the Company by way of intercompany dividends. The investment in the Trading House is expected to be completed on or about May 29, 2014.

Under the terms of a subscription agreement (the "*Subscription Agreement*"), the Company will, subject to the satisfaction of certain conditions, subscribe for 1,000 common shares at CDN\$1.00 per share of the Trading House ("*Common Shares*") and 15,000,000 Class B shares of the Trading House ("*Class B Shares*") at CDN\$1.00 per Class B Share. The Class B Shares will be non-voting shares and will entitle the Company to a preferential dividend over the Common Shares. The legal control of Trading House will rest in a trust formed under the laws of Gibraltar, the Golden International Income Trust (the "*GII Trust*").

Georges Cohen, the president and CEO, and a significant shareholder of the Company, will make a short term advance to Company of an amount of CDN\$15,000,000 in order for Company to complete the Subscription Agreement. This short term advance will immediately be reimbursed by the Company to Georges Cohen upon a partial repayment to the Company in an aggregate amount of CDN\$15,000,000 by Nampala thereby extinguishing certain intercompany advances owed by Nampala to the Company.

Purpose and Business Reasons for the Transaction and its Anticipated Effect on the Company

The purposes of the Trading House Private Placement are to modify the current indebtedness structure and optimize the return on the funding of the capital expenditures necessary for the repayment of part of Nampala's advances owing to the Company, finance the capital expenditures for the production phase of the Mine, and to bolster Nampala's working capital.

Currently, the Company owns all the issued and outstanding shares of Nampala. The Company made advances to Nampala to finance the construction of the Mine; it is anticipated that an aggregate amount of CDN\$15,000,000 of said advances will be repaid by Nampala to Company.

Following the closing of the Trading House Private Placement and assuming the Trading House Private Placement is completed, the Company will maintain its ownership in Nampala. Further, Nampala will be able to repay CDN\$15,000,000 to Company representing part of the advances owing to the Company. With that cash on hand, the Company will refund the short term advance of CDN\$15,000,000 to Georges Cohen, being the capital used by the Company to complete the Trading House Private Placement.

Following the closing of the Trading House Private Placement and the implementation of the Gold Loan, Nampala will pay back the Gold Loan on a fixed fee basis over a ten year period by the delivery of physical doré bars in lieu of cash as payment of capital and interest on the Gold Loan. By doing so, Nampala will have access to cost efficient long term financing not otherwise available in Mali.

The Trading House will sell the doré bars on the international open market and distribute the profits to its main shareholder, the Company, by way of intercompany dividends, subject to the annual preferential dividend payable to the Trust on its Class A Shares of the Trading House. The Trust will hold the legal control of the Trading House.

Review and Approval Process adopted by the Board of Directors

The terms of the Trading House Private Placement and the Trading House Subscription Agreement and the short term advance made by an existing shareholder were considered and recommended by the Board which reviewed and considered the proposed financing transaction involving Trading House and any other relevant alternatives, with a view to fostering the best interests of the Company and its shareholders on the optimization of the return on the investments of the previous and future financing made in Nampala and other relevant alternatives.

On April 25, 2014, the Board met and carefully considered the Trading House Private Placement and resolved to approve, in principle, the Trading House Private Placement and the terms of the Trading House Subscription Agreement.

The Company is not required to obtain a formal valuation (exempted under Regulation 61-101. In accordance with Regulation 61-101, the Company is also not required to seek majority approval by the Company's minority shareholders at a special meeting, because as of the date of this declaration the fair

market value of the Gold Loan does not exceed 25% of the Company's market capitalisation (subsection 5.5(a) of Regulation 61-101) as at the date of the Board's approval.
