STATEMENT OF EXECUTIVE COMPENSATION

Analysis of Remuneration

Objective of the Compensation Program

The compensation program of the Company aims to attract, develop and retain the best human resources to optimally contribute to the efficiency and growth of the Company.

Overall, the executive compensation program aims to design executive compensation packages that meet executive compensation packages for executives with similar talents, qualifications and responsibilities at Companies with similar financial, operating and industrial characteristics.

The company was primarily working in the mineral exploration sector until this year, where they began the pre-production of Dorés at their Nampala mine SA, located in Mali. The full commercial production phase is planned for 2016. Therefore, the use of traditional performance standards, such as the profitability of the Company, is not yet considered appropriate by the Company for purposes of evaluating the performance of senior management. The remuneration of senior management is determined according to the performance and experience of each manager given the business strategy of the Company and general economic issues.

The Company has properties that are in various stages of exploration and development, and the financial resources are limited. Cost control is to ensure that the necessary funds to carry out its exploration programs are available. The Board must take into account not only the financial situation of the Company in the preparation of executive compensation but also the financial situation over the medium and long term.

Compensation Committee

The mandate of the compensation committee was terminated at the meeting of the Board of Directors on April 25, 2014.

Elements of Compensation

The remuneration of senior management is essentially the payment of consulting fees to management companies in which the senior management are employed or are the beneficial owners of those management companies. The Company may also grant options to executives.

Base salary and consultant fees

The Board of Directors, in determining consulting fees for each member of the senior management, takes into account the experience and the position of the individual within the Company.

Annual bonus

Since May 9th, 2013, the Company no longer has employees eligible for the annual bonus program.

Stock Options

The Board of Directors believes that employees should have an interest in the future growth of the Company and they should correspond to those of shareholders. Leaders who can have a direct impact on the affairs of the Company have the opportunity to participate in the stock option plan of the Company's shares for employees, officers, directors and consultants.

Stock Options may be awarded by the Board of Directors to executive officers, employees or consultants at the commencement of their employment, annually, upon the achievement of corporate and individual objectives and from time to time, in order to reward an exceptional accomplishment.

The Board, by providing grants of options, take into account the number of shares already held by the executive management, the level of responsibility assumed by the senior management as well as their contribution to key business objectives of the Company and the achievement of corporate objectives.

For further information regarding the Stock Option Plan, refer to the item "**SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS - Stock Option Plan**".

Compensation of the President

Pursuant to his explicit request, the President did not receive any remuneration during the financial year ended that December 31, 2015, as the financial resources of the Company did not allow it. When the Company will have sufficient liquidity, the President will receive compensation in the form of a management fee based on comparable markets and the evaluation by the Board of his performance taking into account the financial capacity of the Company and the progress made in the pursuit of its strategic objectives.

Use of outsourcing services

The services of the President and the Vice-President and CFO are provided to the Company by Fairchild Participations under a contract of providing for the lending of personnel concluded in May 2015. The company Fairchild charges 180 000 EUR at the end of each quarter which is then converted into Canadian dollars at the corresponding quarter closing exchange rate.

Fairchild Participations is a management company incorporated and domiciled in Luxembourg, and is controlled by the Cohen Group.

Mr Cohen did not receive any remuneration during the financial year ended that December 31, 2015.

The Company paid a total of 720 000 EUR (1,050,000 CDN) to Fairchild participations for the remuneration of 3 of Robex's officers; the Vice-President and Financial Chief Augustin Rousselet, the Director of Legal Affairs Nicolas Ros and a member of the Cohen Group, Mr. Benjamin Cohen, acting as technical director at the Nampala mine.

Mr. Benjamin Cohen receives no amount as salary on the 240 000 EUR (350,000 CDN) paid to Fairchild participations for services rendered to Robex. Benjamin Cohen is a shareholder of Fairchild participations.

The Vice-President and CFO Augustin Rousselet and the Director of legal affairs Nicolas Ros, receives 90% of the 480 000 EUR (700,000 CDN) paid to Fairchild Participations and will be attributable to services rendered by themselves to the Company. The following table indicates for each of the Designated Executive Officers all awards outstanding at the end of the 2015 financial year.

Name	Option-based Awards				Share-based Awards		
	Number of securities underlying unexercised options (#)	Option exercise price (\$)	Option expiration date	Value of unexercised in-the-money options ⁽¹⁾ (\$)	Number of shares or units of shares that have not vested (#)	Market or payout value of share-based awards that have not vested (\$)	Market or payout value of vested share-based awards not paid out or distributed (\$)

Nicolas Ros de Lochouoff, Director of legal affairs	200,000 ⁽²⁾	0,20	June 19, 2017	-	-	-	

(1) Calculated based on the difference between the exercise price of the options and the closing price of the common shares of the Company as at December 31, 2015: \$0.065.

(2) The stock options are valid for a period of two years up to half a year. In the event that this half is not exercised, it would then become prescribed.

Incentive plan awards – value vested or earned during the year for each Designated Executive Officers

Name	Option-based awards – Value vested during the year (\$)	Share-based awards – Value vested during the year (\$)	Non-equity incentive plan compensation – Value earned during the year (\$)
Augustin Rousselet	-	-	-
Nicolas Ros de Lochouoff	-	-	-

If the common stock closing price of the company is lower than the exercise price, the share option has no value and is valued at \$ 0. A) \$10 million in private financing and debt conversion

On January 21st, 2015, the company made a private placement of \$10,000,000 CDN. The company issued 142 857 142 shares of its capital stock at a price of \$ 0.07 in connection with this financing. These shares are subject to a hold period of four months and a day from the date of closing. This funding was intended to allow the Company order the necessary equipment to restart the Nampala mine.

On the same day, the company issued 126 486 885 shares of its capital stock at \$ 0.07 in order to reimburse the loan consented by Mr. George Cohen of the company, as well as the interest, for a total of \$8,854,082 CDN.

The previous two transactions were made with Mr. Georges Cohen, president and CEO . This transaction was the subject of a formal evaluation and approval by the TSX Venture Exchange and a press release dated December 30, 2014 was issued announcing the settlement of this debt into equity. On the same date , mortgages first and second lien guaranteeing the repayment of credit facilities were delisted.

Each of these transactions were a "related party transaction" under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). They were exempted from the requirement to prepare a formal evaluation and minority approval provided for in Regulation 61-101 under the exemption in paragraphs 5.5 (g) and 5.7 (1) (e) of this regulation because of its financial difficulties. December 29, 2014, the Company's Board of Directors established a special committee of four directors of the Company, which are all independent and free from any participation in proposed transactions and unconnected with George Cohen. The Special Committee unanimously recommended to the Board of Directors of the Company to approve the transaction on the grounds that the company is in serious financial difficulty, that the proposed transactions were designed to improve its financial position and that the terms and conditions proposed transactions were reasonable in the circumstances given the situation of the company. In accordance with Article 5.2 of Regulation 61-101, the Company filed, within the time prescribed on the SEDAR website, a material change report regarding the proposed transactions.

B) Temporary loan of \$2 million CDN

On May 19, 2015 the Company negotiated with Mr. Georges Cohen, President and CEO of the Company, a temporary loan of \$2 million CDN. The purpose of this temporary loan was to provide the Company with the resources in order to continue the short-term investments required for the equipment to restart the Nampala mine at 4,000 t / d.

The loan bears an interest rate of ten percent (10%) annually. This loan will be fully repaid, principal and interest, at the time of closing the private placement debenture of 10M.

On July 2, 2015, the Company repaid the loan in the amount of \$2 million and the interest accrued on that date for a total of \$ 2,022,466 CDN.

The company based themselves on the applicable exemption, under Regulation 61-101; to not have to obtain prior approval from the minority shareholders, since the market value of the credit facility and the funds that had been advanced to company did not exceed 25% of the value of the company's capitalization.

For more information, refer to rubric C).

C) Private placement of \$7,105,000 CDN

On July 2, 2015, the company invested in unsecured convertible debentures for an amount of \$7,105,000 CDN. According to management "These additional funds will support the Nampala exploration program, working capital requirements in order to restart the mine at 4,000 tons per day and increase investments at the Nampala mine for the acquisitions of higher level equipment compared to those that had been originally envisaged."

On July 2, 2015, the Company repaid the temporary loan of \$ 2 million as well as the interest accrued on that date for a total of \$ 2,022,466 CDN. Mr. Georges Cohen had granted this loan to enable the company to continue the construction of Phase 2 of their Nampala mine while pending the closure of the debenture financing.

Insiders have subscribed for a total of \$ 6,505,000 in debenture capital in connection with the financing (the "Insider Participation"). The Insider Participation is exempt from the obligation to establish a formal evaluation and the approval of the minority holders in regards to regulation 61-101 in accordance with the exemption provided for in Articles 5.5 (a) and 5.7 (1) (a) of Regulation 61-101, as the fair market value of insider participation or the consideration paid by such insiders does not exceed 25% of the market capitalization of the Company.

Name and functions	Amount subscribed (\$)
Georges Cohen, President and CEO	6,500,000
Claude Goulet, Director	5,000

D) Changes to the convertible debentures issued November 21, 2013

On November 13, 2015, the Company modified the terms of 14 of the 15 convertible debentures issued on November 21, 2013. Insiders had subscribed for a total of 10,255,000 in capital debentures as part of this financing (the "Insider Participation ").

The modifications made were in order to extend the deadline to November 21, 2018 and to enable the Company to (i) reimburse the debentures at any time prior to maturity (the owner retains the right to receive reimbursement in shares at a price 0.15 each) and (ii) to defer the payment of interest to November 21, 2018, subject to annual interest of 10%.

The following insiders hold convertible debentures:

Name and functions	Amount subscribed (\$)
Group Cohen, President and CEO	6,000,000
Julien Cohen, Director	2,000,000
Benjamin Cohen, Director	2,000,000
Augustin Rousselet, Vice-President and CFO	100,000
Richard R. Faucher, Director	30,000
Claude Goulet through Canaccord Genuity Corp., Director	15,000
Michel Doyon through Michel Doyon management, Director	50,000
Michel Doyon through Doyon & Fils Investments, Director	60,000

Since it is a transaction with a related party, in accordance to Regulation 61-101, the Board of directors has determined that exemptions 5.7 (e) was applicable and that the minority approval was not required. This decision was made due to the fact that the company did not have sufficient liquidity to proceed with the capital reimbursement of the debentures while pursuing the development of the Nampala project. The participation administrators in the transaction abstained from voting.

E) Credit Facility of € 1,000,000

On January 12th, 2016 the Company obtained a loan in the amount of 1 million euro (\$1,548,500 CDN) made by Mr. Georges Cohen, president and CEO of the Company. The purpose of this loan is to provide the Company with the working capital required to continue the development and operations of the Nampala mine.

The loan bears an interest rate of eight percent (8%) annually. Robex must repay this loan with the dividends that come from African Peak Trading House Ltd. Any balance due must be repaid in euro no later than June 30, 2016.

The above loan involving Mr. Georges Cohen is a "related party transaction" under Regulation 61-101. However, it is exempt from the requirement to obtain minority approval provided for in Regulation 61-101 under the exemption in paragraphs 5.7(1)(a) as the fair market value of the anticipated participation of the specified person or the consideration paid does not exceed 25% of Robex's market capitalization.
